

# Projects

## Le's Food App

<https://letsfood.jaysonromero.com>

The Let's Food App was a React project, which allowed me to delve deeper into Tailwind, ES6, File Folder Structure, Component, Props and Events.

## To-do-list App

<https://to-do-list.jaysonromero.com>

To-do list app is built using React, Tailwind CSS, Node.js with Express, and MySQL. these technologies deliver a seamless and robust to-do list experience with a RESTful API for efficient task management and includes user authentication and login functionality using techniques such as JSON Web Tokens (JWT)
